

Redevelopment plans for the Bell Hotel

January 25, 2010 | [Winnipeg Free Press editorial](#)

Some details of the redevelopment of the Bell Hotel were highlighted in a Winnipeg Free Press editorial ([here](#)). The project details are still being finalized, but the program will operate under what is known as the housing-first philosophy. Under a federal-provincial program the Bell's single room occupancy units are to be converted into 42 bachelor suites for the homeless. Centre Venture bought the hotel over two years ago ostensibly to remove the beer vendor from the Main Street strip.
